EDUCATION

Pragati Engineering College

Bachelor of Technology in Computer Science and Engineering

Surampalem

2023 – 2027

Aditya Junior College

MPC

Srinagar, Kakinada

2021 – 2023

EXPERIENCE

Open Source Contributor

May 2025 – Present

Mail0, Analog AI Calendar — Remote

- Implemented frontend enhancements and UI optimizations for web-based tools, improving usability and accessibility
- Integrated REST APIs into existing React components for dynamic data rendering
- Collaborated with maintainers to refine user flows, debug UI issues, and improve performance in production builds
- Contributed to CI/CD workflows for smooth deployment of frontend updates

PROJECTS

OpenBook | *React.js, Node.js, TailwindCSS, REST APIs*

2024 – Present

- Developed a multi-language AI-powered educational platform with a responsive React frontend and Node.js backend
- Integrated RESTful APIs for real-time chat, voice features, and AI-driven content delivery
- Implemented reusable React components and state management for smooth user interaction
- Optimized performance and accessibility for high-traffic usage
- goopenbook.in — GitHub

OpenBook Landing Page | *Next.js, TailwindCSS, SEO Optimization*

2024

- Built a fully responsive marketing site using Next.js for SEO-friendly server-side rendering
- Implemented modern UI design with TailwindCSS and smooth animations for better engagement
- page.goopenbook.in — GitHub

SafeLink | *Python, HTML, CSS*

2023 – Present

- Developed a secure link shortening service with custom UI and malicious link detection algorithms
- Designed an intuitive frontend for easy user interaction

Educational Resource Website | *HTML, CSS, JavaScript*

2023 – Present

- Designed and deployed a resource platform with responsive UI for 60+ daily users

TECHNICAL SKILLS

Frontend: React.js, Next.js, HTML, CSS, JavaScript, TailwindCSS

Backend: Node.js, Flask, FastAPI

APIs: REST API integration, Axios, Fetch

Version Control: Git, GitHub

Other: Python, Java, C, Google Cloud Platform
